

RICH IN HISTORY AND TRADITION.

Franklin Plaza is renowned as the place to go to make dreams come true, and is the cornerstone of historic and prestigious events. Its character has an inherent connection in time which creates monumental memories and your very own time honored traditions.

For over 170 years, Franklin Square of Troy has housed some of the most powerful financial institutions in New York State's history. Built in 1833, its Doric architecture and grand entrance have stood as a pillar of strength at the edge of the Hudson River. In 1992, the building was restored to its original grandeur.

AN OPULENT GRAND PALACE.

Many key features of the building now have new meaning. The bank vault has been renovated into the Clerk Check. The main entrance and teller's counter, with it's beautiful and rare pink marble has been transformed into the Grand Ballroom and Bar. Other grand features include the Walnut Boardroom and the Crystal Room. The historic Monitor Room was preserved for its rich heritage. In this very room the plans and financing were put in place to build the "Monitor", the ironclad battleship that served the North in the Civil War. Be immersed in tradition and elegance with exquisite and lavish décor and celebrate with opulent style.
